

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-127 (6018-01)
Name: DEER LAKE IMPROVEMENT ASSOCIATION: Deer Lake Management Planning
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 04/16/1992
End Date: 08/31/1993
Purpose: Prepare a hydrologic budget for the lake. Estimate nutrient and sediment export rate into lake. Conduct a survey of lake shore residents. DNR will receive copies of the final report. Information will be disseminated to the public by newsletter, local newspaper articles, news releases and public meetings. Project results will be reposted at Barr, land conservation Office project report files.

Deer Lake Planning Grant Report - Polk County, Wisconsin	The study described by this report was initiated by the Deer Lake Improvement Association for the purpose of providing information to water resource managers and citizens regarding the management of Deer Lake. The study resulted in determining that Deer lake is a mesotrophic to slightly eutrophic lake, which experiences degraded water quality in the fall due to internal loads of phosphorus.	Barr Engineering Company	06/30/1993
