

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-619
Name: BLUE MOUNTAIN LAKE LIMITED: Blue Mountain Lake Management Plan
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 04/01/1999
End Date: 12/31/2000
Purpose: The Blue Mountain Lake Ltd proposes to begin work toward a comprehensive lake management plan for Blue Mountain Lake. The objective of this study is to provide a baseline characterization of the lake while identifying lake management issues and needs. To meet this objective, the lake study will include delineation of watershed drainage basins and corridors, identification of existing land uses in the Blue Mountain Lake watershed, examination of the impacts of existing land uses on water quality, characterization of the lake's substrate and morphology, water quality monitoring, and an aquatic vegetation survey. To disseminate information to the public and increase local understanding of lake management issues, a public meeting will be held prior to project start-up to present goals and objectives of the lake planning project and obtain public input regarding lake concerns. At completion of the project, the results of the lake planning study will be disseminated to local lake management organization members through a public meeting, news releases, and summary reports. A report containing the results, management alternatives and implementation strategies for the recommended management alternatives will be submitted to DNR.
