

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-231
Name: CITY OF STEVENS POINT: McDill Pond Lake Management Planning - Phase 2
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 04/06/1994
End Date: 06/30/1998
Purpose: Based on recommendations from Pase 1 of the McDill Pond planning activities, the City of Stevens Point will address sediment loading needs by determining existing accumulation rates, projectinf future rates and identifying remedial actions. A fisheriesmanagement plan and a public participation program will also be undertaken. Project activities include: 1) sediment core sampling in the Plover River and McDill Pond 2) investigationof upstream erosion 3) model sediments entering McDill Pond byquantifying river hydraulics, sediment loading patterns and projecting future sediment loading 4) evaluate the feasibility of dredging 5) develop a fisheries management plan 6) disseminate the information regarding these activities and resultingrecommendations to the public by newsletter, local newspaper articles and public meetings. Project results will be repositied Portage County Public Library, City Hall and City of Stevens Point
