

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-258
Name: MCCASLIN LAKE DISTRICT: McCaslin Lake Management Planning
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 02/13/1995
End Date: 12/31/1997
Purpose: 1. Review resource information, past and present management programs and prepare a land use survey. 2. Analyze water quality and sediment conditions. 3. Complete an aquatic macrophyte and hydrographic survey. 4. Perform a watershed analysis and lakemodeling. 5. Develop a comprehensive lake and watershed management plan. 6. Identify needs and the perceived problems of lake district members. 7. Prepare a final report which include tasks 1 - 6 listed above. 8. The grantee will disseminate information to the public by entire report mailings, public meetings, local newspaper articles, a comprehensive management plan and a final report presentation. Project results will be repositated at the Land and Water Conservation Department and thepublic Libraries.

Title	Description	Author	Published	Comments
McCaslin Lake Management Plan	McCaslin Lake is a shallow 7 4-acre lake located in northwestern Marinette County. The lake is moderately developed with 29 cottages and homes located on the shoreline. The property owners of McCaslin Lake have a long history of working to protect and improve their lake, including the formation of a Lake District in 1980. The District contracted with the Marinette County Land & Water Conservation Department (L WCD) in 1995 to produce a comprehensive Lake Management Plan. The purpose of this plan is to explore lake management options and assist the McCaslin Lake District in future management decisions.	Grant Recipient	12/31/1997
