

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-532
Name: CITY OF MENASHA: Lake Winnebago Menasha Residential Channel Water Quality
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 10/01/1997
End Date: 06/30/1999
Purpose: The City of Manasha proposes to conduct a historic water study as well as study the current conditions of the navigation channels in Menasha that lead to Lake Winnebago. The activities will include the following: 1) collect historical data, 2) collect current data and show correlation to water level changes, dam operation, and analyze other water characteristics of both the channel waters and lake water, 3) identify algae management strategies and implementation plans for the viable strategies. The Department of Natural Resources will be provided with both a paper copy and an electronic copy of the final report. The project results will be disseminated to the public by newspaper articles and public meeting(s).
