

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-897-04
Name: CABLE LAKE ASSOCIATION, INC.: Cable Lake Study
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 10/01/2003
End Date: 12/31/2006
Purpose: Cable Lake Association will conduct studies to determine the current water quality and ecosystem conditions on Cable and Wiley Lakes in Bayfield County. This effort will identify current or future problems, strategies for lake protection and establish background data for future assessments. The Association will use information collected in the study to petition the County to reclassify portions of the lake to a higher level of protection and to establish a canoe recreational trail.

Specifically, the Association, its consultants and volunteers will: 1) Conduct one year of multi-parameter water quality monitoring on three lake sites. 2) Establish a lake level staff gage. 3) Map and characterize watershed landuse including sensitive and habitat areas and review and evaluate the adequacy of existing ordinances and plans to protect the lakes. 4) Complete an aquatic plant and shoreland assessment and work with the department to identify sensitive areas in the lake. 5) Conduct a sociological study of lakeshore residents. Specific deliverables for this grant project include: A report interpreting and summarizing all project results.

The project results will be disseminated to the public by newsletter(s), public meeting(s), and local newspaper articles.

Objective:
Comments: Grantee is CABLE LAKE ASSOCIATION, INC.
