

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-131 (4028-01)
Name: CHILTON LAKE DISTRICT: Lake Chilton Water Quality Monitoring & Macrophyte Survey
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 12/03/1992
End Date: 06/30/1995
Purpose: 1) Monitor water quality during 1993 per application specs. 2) Collect and identify macrophytes. 3) Correlate water flows with amount of sediment accumulation.4) Disseminate information to the public by local newspaper, public meetigns, and summary report mailings.

Chilton Millpond Lake Management Planning Grant 1993 Report	The main objective of this study was to collect limnological data on Chilton Millpond. Our goal with gathering this baseline information to help us make decisions on whether to continue the effort to establish a warm water fishery in Chilton Millpond at this time or defer this attempt to a later time. A secondary goal of this study was to look for relationships between the land uses in the watershed and the water resources of the South Branch of the Manitowoc (and its tributaries) and the problems of that face the resources of the Chilton Millpond.
