

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPT-196-03
Name: BUTTE DES MORTS CONSERVATION CLUB, INC: RES-Terrell Island Habitat Restoration Project
Type: Lakes Grant
Subtype: Lake Protection Grant
Status: COMPLETE
Start Date: 07/01/2002
End Date: 06/30/2003
Purpose: This project will harden the shores of 4 existing islands within the breakwall project area known as Terrell Island on the south side of Lake Butte des Morts. Nearly 1,200 feet of rock structure will be installed along the windward edges of the islands with extending wings to enhance the aquatic plant community of emergents, floating leaf and submergent plants.

These benefits are expected to occur:

- 1) Improved water quality , especially clarity in the area adjacent to the structure.
- 2) Greater areal coverage of aquatic plant growth and the habitat benefits for fish.
- 3) Enhanced wildlife benefits for waterfowl and shorebirds, reptiles and amphibians.
- 4) Reduced island erosion.

The Butte des Morts Conservation Club is in partnership with Winnebago County and the DNR on the project. The projected costs are \$65,680.

The DNR will be provided with both a paper copy and an electronic copy of the final report. Information will be disseminated to the public as described in the grant application.

Objective:
Comments: Grantee is BUTTE DES MORTS CONSERVATION CLUB, INC
Outcome:
Study Design:
QA Measures:
