

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-1044-05
Name: SAND LAKE MANAGEMENT DISTRICT: Phase 2: Sand Lake Aquatic Plant Management Plan
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 04/01/2005
End Date: 06/30/2006
Purpose: The Sand Lake Management District will conduct a comprehensive two phase project to document current aquatic plant conditions in the lake and produce an aquatic plant management plan. The exotic invasive plant species Eurasian Water Milfoil has been recently documented in Sand Lake and these projects are a part of the ongoing aquatic plant management planning process being conducted by the Lake District on Sand Lake.

Activities for this particular Phase 2 grant project include; identifying problems and setting goals, inventorying and evaluating past and current lake conditions, promulgating lake management alternatives and recommending preferred options, developing a comprehensive aquatic plant management plan, and recommending a monitoring program to evaluate the implementation of this plan.

Specific deliverables for this grant project include:
 \00B7 A comprehensive Aquatic Plant Management Plan for Sand Lake.

The Department of Natural Resources will be provided with both a paper copy and an electronic copy of the final report. The project results will be disseminated to the public by newsletter(s), public meeting(s), and local newspaper articles.
