Title	Description	Author	Published	Comments
Taylor County Aquatic Invasive Species Plan	Taylor County has 27 public access lakes with boat launches or easily accessible roadside/carry-in access. Others exist but are longer walk ins or accessible by navigable waters. Many streams and marshes also exist, which are equally susceptible to harm from invasive species. The purpose of this AIS plan is to identify short-term and long-term goals toward establishing a coordinated, county-wide approach to protecting Taylor County's lakes, rivers and wetlands. AEPP-445-15	Chris Hamerla	01/01/2017
