

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** ACEI-167-15  
**Name:** LAKESHORE NATURAL RESOURCES PARTNERSHIP INC.: Lk. Michigan Shoreline & Inland Phrag Control Project  
**Type:** Aquatic Invasives Grant  
**Subtype:** Aquatic Invasives Control  
**Status:** COMPLETE  
**Start Date:** 04/15/2015  
**End Date:** 06/30/2018  
**Purpose:** Lakeshore Natural Resources Partnership (LNRP) proposes to implement the Manitowoc County Shoreline and Inland Phragmites Management Plan approved by the WDNR in 2014. The project will monitor and map non-native phragmites locations, establish rapid response reporting and treatment protocols, conduct manual, mechanical and chemical treatment of phragmites, and provide educational opportunities to private landowners and County and Town Highway Department crews to give them the ability to control phragmites on their respective properties. LNRP will submit a final report summarizing the project to the Department. The project elements and deliverables will be completed as described in the project proposal except the deliverables and costs were modified to cover a three-year project instead of the 5-year project proposal originally submitted to the Department and dated January 29, 2014.

**Objective:**  
**Comments:** Grantee is LAKESHORE NATURAL RESOURCES PARTNERSHIP INC.  
**Outcome:**  
**Study Design:**  
**QA Measures:**
