

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: NKE18
Name: Pensaukee River PWS Plan - Nine Key Element Plan
Type: Water Quality Planning
Subtype: Priority Watershed Plan
Status: ACTIVE
Start Date: 12/01/1996
End Date: 12/31/2018
Purpose: The Pensaukee River Priority Watershed Project plan assesses the nonpoint sources of pollution in the Pensaukee River Watershed and guides the implementation of nonpoint source control measures. These control measures are needed to meet specific water resource objectives for the Pensaukee River and its tributaries. The purpose of this project is to reduce the amount of pollutants originating from nonpoint sources that reach surface water and groundwater within the Pensaukee River Watershed.
Objective: The primary objective of the project is to reduce nonpoint source pollution to the surface water and groundwater, and to enhance and protect the water quality of streams in the Pensaukee River Watershed. This would also serve to reduce nonpoint source pollution reaching the bay of Green Bay after leaving the Pensaukee system. The Pensaukee River is part of the Upper Green Bay Basin.
