

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: NKE28
Name: Upper Trempealeau River PWS Plan - Nine Key Element Plan
Type: Water Quality Planning
Subtype: Priority Watershed Plan
Status: ACTIVE
Start Date: 07/01/1994
End Date: 12/31/2016
Purpose: The Upper Trempealeau River Priority Watershed Project plan assesses the nonpoint sources of pollution in the Upper Trempealeau River Watershed and guides the implementation of nonpoint source control measures. These control measures are needed to meet specific water resource objectives for the Upper Trempealeau River and its tributaries. The purpose of this project is to reduce the amount of pollutants originating from nonpoint sources that reach surface water and groundwater within the Upper Trempealeau River Priority Watershed Project area.
Objective: The primary objective of the project is to reduce nonpoint source pollution to the Trempealeau River, and to enhance and protect the water quality of streams in the Upper Trempealeau River Watershed.
