

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** NKE60  
**Name:** Lower Grant River PWS Plan - Nine Key Element Plan  
**Type:** Water Quality Planning  
**Subtype:** Priority Watershed Plan  
**Status:** COMPLETE  
**Start Date:** 12/01/1991  
**End Date:** 12/31/2012  
**Purpose:** The Lower Grant River Priority Watershed Project plan assesses the nonpoint sources of pollution in the lower portion of the Grant River Watershed below the river's confluence with the Pigeon River and guides the implementation of nonpoint source control measures. These control measures are needed to meet specific water resource objectives for the Lower Grant River Priority Watershed Project area. The purpose of this project is to reduce the amount of pollutants originating from nonpoint sources that reach surface water and groundwater within the Lower Grant River Priority Watershed Project area.  
**Objective:** The primary objective of the project is to reduce nonpoint source pollution to the surface water and groundwater, and to enhance and protect the water quality of streams in the Lower Grant River Watershed project area.  
**Comments:**  
**Outcome:**  
**Study Design:** <http://dnr.wi.gov/topic/nonpoint/documents/9kep/expired/LowerGrantRiver.pdf>  
**QA Measures:**
