

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: NKE62
Name: Lowes Creek PWS Plan - Nine Key Element Plan
Type: Water Quality Planning
Subtype: Priority Watershed Plan
Status: COMPLETE
Start Date: 05/01/1993
End Date: 12/31/2010
Purpose: The Lowes Creek Priority Watershed Project plan assesses the nonpoint sources of pollution in the Lowes Creek Watershed and guides the implementation of nonpoint source control measures. These control measures are needed to meet specific water resource objectives for Lowes Creek and its tributaries. The purpose of this project is to reduce the amount of pollutants originating from nonpoint sources that reach surface water and groundwater within the Lowes Creek Priority Watershed Project area.
Objective: The primary objective of the project is to reduce nonpoint source pollution to the surface water and groundwater, and to enhance and protect the water quality of streams in the Lowes Creek Watershed.
