

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: GL00E01312_sub5.b5
Name: Bat Survey Post-restoration verification
Type: Great Lakes Restoration Initiative
Subtype: Habitat
Status: PROPOSED
Start Date: 08/05/2016
End Date: 09/30/2019
Purpose: Repeat of baseline surveys post-restoration for verification
Objective: Acoustical bat surveys will be done on rivers and streams and / or land routes as appropriate using a mobile bat detection system. This system collects bat occurrence data in a standardized method removing observer bias in identification and is the most cost effective and efficient means of gathering this type of data. The mobile detection system will put a species name, time, date, and location stamp on each bat occurrence and can be used to detect migrant or resident bats dependant upon time of year.
