

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** LPL-1130-07  
**Name:** VILLAGE OF CHENEQUA: Village of Chenequa Water Budget Part II  
**Type:** Lakes Grant  
**Subtype:** Large Scale Lake Planning  
**Status:** COMPLETE  
**Start Date:** 10/01/2006  
**End Date:** 12/31/2010  
**Purpose:** The Village of Chenequa will provide computation of water budgets for the four lakes within the study area (Beaver, Cornell North and Pine Lakes). This information will be used to form a comprehensive water resources management plan for the Village and environs, consistent with the objectives of CH NR 190, WI Administrative Code. The study will be used as part of a ongoing program of lake related management actions to be used by the Village of Chenequa and it's neighboring units of government. Two paper copies and one electronic copy of the report will be provided to the department. The report will include the following project deliverables:  
 " Evaluation of the role of groundwater on maintaining lake levels within and adjacent to the Village of Chenequa  
 " Calculation of the water budgets for the studied lakes over the long term, utilizing the groundwater flow model (MODFLOW) developed in the Phase I (LPT-1111-07) grant  
 " Results of simulations of future hydrological conditions  
 " Preparation and publication of a report that describes the hydrogeologic units, their hydraulic properties, extent, thickness and elevation, model development and calibration and selected results showing the effects of development scenarios on the shallow groundwater system and lake levels. The report will be published as a USGS document.  
 Exact details for deliverbles are described in the project description.

**Objective:**  
**Comments:** Grantee is VILLAGE OF CHENEQUA  
**Outcome:**  
**Study Design:**  
**QA Measures:**
