

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** AEPP51517  
**Name:** BURNETT COUNTY LAND CONSERVATION DEPARTMENT: Burnett County AIS Support  
**Type:** Aquatic Invasives Grant  
**Subtype:** Aquatic Invasives Education  
**Status:** ACTIVE  
**Start Date:** 02/15/2017  
**End Date:** 12/31/2021  
**Purpose:** Burnett County is sponsoring a multi-year countywide AIS project/position with an emphasis on zebra mussel response activities. The project will expand the coordinator roles and responsibilities to include serving as the lead for local rapid response efforts. Activities include: AIS education/outreach; decontamination unit operation; one PI survey and APM plan annually; approved alternative watercraft inspection; purple loosestrife and phragmites control/coordination; and AIS monitoring; and CLMN and CBCW training.

Project deliverables include the results of the monitoring, planning, control assistance, and education/outreach as described in the application, including all GIS-related data and files, and a project summary report.

Special Conditions: WDNR\2019s Aquatic Plant Management in Wisconsin guidance should be followed for point-intercept survey monitoring and aquatic plant management plan development. The Department may specify other AIS monitoring methods, and all data should be entered into SWIMS.

The specific objectives, metrics, and deliverables for the listed activities are included in the application and supporting materials, and this scope is not intended to replace or supersede those documents. The Department may request quarterly progress reports.

**Objective:**  
**Comments:** Grantee is BURNETT COUNTY LAND CONSERVATION DEPARTMENT  
**Outcome:**  
**Study Design:**  
**QA Measures:**
