

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: AEPP51417
Name: WASHBURN COUNTY: Washburn County AIS Project
Type: Aquatic Invasives Grant
Subtype: Aquatic Invasives Education
Status: COMPLETE
Start Date: 02/15/2017
End Date: 06/30/2020
Purpose: Washburn County is sponsoring a multi-year countywide AIS project/position with an emphasis on zebra mussel response activities. The project will expand the coordinator roles and responsibilities to include serving as the lead local response efforts on at least one waterbody/year, if necessary. Activities include: AIS education/outreach; approved alternative watercraft inspection on McKenzie Lakes; purple loosestrife, Japanese knotweed, and yellow flag iris control/coordination; AIS monitoring, including early detection lakes; and CLMN, CBCW, and Project RED training.

Project deliverables include the results of the monitoring, planning, control assistance, and education/outreach as described in the application, including all GIS-related data and files, and a project summary report.

Special Conditions: The Department may specify other AIS monitoring methods, and all data should be entered into SWIMS.

The specific objectives, metrics, and deliverables for the listed activities are included in the application and supporting materials, and this scope is not intended to replace or supersede those documents. The Department may request quarterly progress reports.

Objective:

Comments: Grantee is WASHBURN COUNTY
