

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: ACEI19417
Name: ANVIL LAKE ASSN, INC: Anvil Lake AIS Monitoring & Harvesting Strategy
Type: Aquatic Invasives Grant
Subtype: Aquatic Invasives Control
Status: COMPLETE
Start Date: 04/15/2017
End Date: 06/30/2020
Purpose: Anvil Lake Association is sponsoring an ACEI grant on Anvil Lake, in Vilas County. This project will focus on EWM management.

Project activities include: 1) Annual DASH removal of EWM; 2) Develop annual project report.

Project deliverables include: 1) Harvested EWM; 2) Annual reports summarizing EWM management during project and future EWM management direction, AIS monitoring and AIS educational activities.

Specific Conditions for this project: Annual reports need Dept review and approval.

WDNR Lakes Management Coordinator will be provided with an electronic (pdf or word) copy of all annual reports, all maps, all GIS and survey data.

Anvil Lake Final Harvest Report 2017	The Anvil Lake Association invested in the components to build a Diver Assisted Suction Harvesting (DASH) unit for use on Anvil Lake in 2016. This summer was the first summer the DASH was available for the entire summer. The DASH unit was used to manage Eurasian watermilfoil (EWM) in the North Bay of the lake and other approved areas. A permit was granted to the Anvil Lake Association on June 2017 by the Wisconsin Department of Natural Resources to allow mechanical harvesting on 12 acres in the north bay of the lake and other selected areas. The DASH unit remained on Anvil Lake for the harvest season.	Gene Welhoefer	11/05/2017
