

## Wisconsin Department of Natural Resources SWIMS Project Summary

### General Project Information

**Project ID:** ACEI-023-07  
**Name:** INLAND LAKES PROTECTION & REHABILITATION DIS: Inland Lakes EWM Control Project  
**Type:** Aquatic Invasives Grant  
**Subtype:** Aquatic Invasives Control  
**Status:** COMPLETE  
**Start Date:** 04/01/2007  
**End Date:** 12/31/2010  
**Purpose:** The Inland Lakes P&R Dist. proposes to: a) control Eurasian water-milfoil (EWM) through chemical treatment in the waters of the Inland Lakes P&R Dist, and b) in partnership with the Townsend Flowage Assn, conduct EWM monitoring and preventative measures in the waters of the Inland Lakes P&R Dist and Townsend Flowage, during the period 2007 - 2010. The project elements and deliverables are specified in the Inland Lakes P&R District AIS Grant application, dated January 25, 2007. The project includes conducting pre- and post-treatment surveys and surveys of untreated waters annually to monitor the presence of EWM and other aquatic invasive species (AIS), extent of EWM and the efficacy of the previous year's treatment; installing and relocating buoys to mark known EWM beds; treating EWM infested areas in waters of the Inland Lakes P&R Dist with aquatic herbicide(s); performing water quality testing for watershed assessment, with the results sent to the State Lab of Hygiene; and conducting education and prevention activities to prevent further AIS infestations, including constructing and erecting kiosks at boat landings, mailing educational information to District and Association members, and conducting watercraft inspections. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. Any publications or signs produced as part of this project will incorporate the "Stop Aquatic Hitchhikers!"EM brand (partnership details are at <http://www.protectyourwaters.org>). Annual progress reports and a final report summarizing the four-year project will be provided to DNR. If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.

**Objective:**  
**Comments:** Grantee is INLAND LAKES PROTECTION & REHABILITATION DIS  
**Outcome:**  
**Study Design:**  
**QA Measures:**
