

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL-1155-07
Name: JEFFERSON COUNTY LCD: Hope and Mud Lakes Sampling and Mgmt. Plan
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 04/01/2007
End Date: 12/31/2010
Purpose: Chemical and biological monitoring and watershed assessment will be completed on Hope and Mud Lakes. Management plans will be developed for both lakes, including public input sessions, management needs identified and prioritized, and public access expansion explored for Hope Lake.

Please note: Final report deliverables help us ensure that the grant has been satisfactorily completed, and that state dollars are being spent wisely. Every deliverable, no matter how minor, must be completed in order to receive full reimbursement for the state share of costs. Ranking questions used to obtain this award, and specific deliverables mentioned in your grant description, constitute final report deliverables. If any deliverable is not adequately provided in the final report, only partial reimbursement, at the department's discretion, will be made. The only exception will be if there is a well-justified and department approved scope amendment. If you have any question about what a specific ranking question or other deliverable means, please contact your lake coordinator BEFORE you sign this agreement.

Objective:

Comments: Grantee is JEFFERSON COUNTY LCD
