

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: RP-150-08
Name: GLACIERLAND RC&D, INC.: Sheboygan River Partnership Membership Building
Type: River Grant
Subtype: River Planning Grant
Status: COMPLETE
Start Date: 07/01/2007
End Date: 12/31/2008
Purpose: Funding for a part-time person to increase membership and engage volunteers. The membership program will focus on developing services, program & products, i.e. Adopt a Stream, Friends Groups or watershed group to adopt rivers and streams with initial focus on Sheboygan, Pigeon, Black, Mullet, Onion River and Willow, Sauk and Sucker Creeks. This person will coordinate programs and events to involve the new members with in depth stewardship activities on the rivers in the Sheboygan Basin. Building membership will also build funding sources for the Partnership.

Department staff are improving the quality of grant reports by making sure applicants know very clearly ahead of time that ranking points ARE deliverables. We interpret the ranking questions very literally. In rare cases, an equivalent effort is considered; it should be clarified by the justification/explanation given with the ranking point and equivalent effort must be approved by Department staff. When the grant is complete, the Department will look for every single deliverable, even minor ones, and if they are not adequately addressed, only partial reimbursement (at the department's discretion) will be made to the applicant. A full description of the project scope and deliverables is available in the grant application, which is part of this agreement. The DNR will be provided with two paper copies and an electronic copy of the final report. Information will be disseminated to the public as described in the grant application.

Objective:
Comments: Grantee is GLACIERLAND RC&D, INC.
Outcome:
Study Design:
