

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: SPL40219
Name: POLK COUNTY LWRD: Aquatic Plant Management Plan Development for Vincent Lake
Type: Lakes Grant
Subtype: Small Scale Lake Planning
Status: COMPLETE
Start Date: 02/15/2019
End Date: 06/30/2020
Purpose: Activities: Developing an Aquatic Plant Management Plan for Vincent Lake

Project deliverables include: an APM plan that includes an implementation plan with methodologies, results, and management alternatives discussion.

Specific project conditions: WDNR\2019s Aquatic Plant Management in Wisconsin guidance shall be followed for aquatic plant management plan development. The NOR Native Plant Protection Strategy shall be integrated into the APM plan.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lakes Biologist.

Vincent Lake - Aquatic Plant Management Plan, 2019-2024	Since 2012, landowners on the lake have increasingly voiced concerns over the spread and cover of aquatic plants. In September 2017, landowners officially formed the Vincent Lake Association to collaboratively approach aquatic plant management (with review by Wisconsin DNR) and continue other maintenance activities. In 2018 the Association implemented a trial harvesting plan with the goal of restoring navigational channels in the second lake. Assistance with access lanes (30 feet per 100 feet of shoreline) was offered to landowners who contributed to the weed harvesting plan fund.	Katelin Anderson	08/01/2019	
Vincent Lake Aquatic Plant Management Plan Approval Request	Letter of approval of the 2019-2024 Vincent Lake Aquatic Plant Management Plan.	Alex Smith	08/01/2019
