

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: LPL169419
Name: LAUDERDALE LAKES MANAGEMENT DISTRICT: Lauderdale Lakes Aquatic Plant Management Update
Type: Lakes Grant
Subtype: Large Scale Lake Planning
Status: COMPLETE
Start Date: 02/15/2019
End Date: 12/31/2020
Purpose: The Lauderdale Lakes Management District is sponsoring a project to update the Aquatic Plant Management Plan for Green, Middle and Mill Lakes, part of the Lauderdale chain of lakes.

Project final deliverables include: results of the 2019 P/I surveys in electronic excel spreadsheets; paper and electronic copy of the report and aquatic plant management plan.

Specific project activities include: 1) conducting a summer 2019 P/I survey on Green, Middle and Mill Lakes; 2) analyzing the P/I data with maps showing the location and density of aquatic plant species; 3) comparing the P/I data to previous plant surveys in tables; 4) compiling the P/I data into tables showing plant statistics; 5) discussion of the results of the survey and changes noted since the previous survey; 6) development of a revised harvesting plan; and 7) presentation of the plan to the District membership.

Special Conditions: 1) All data shall be entered into the SWIMS database.

This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, and reports, including GIS-based maps, and digital images, must be submitted to the Department in a format specified by the regional Lake Biologist.

If consultant is to provide final report, it is recommended that Grantee provide DNR Lake Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to submission of grantee's final payment request.

Objective:
Comments: Grantee is LAUDERDALE LAKES MANAGEMENT DISTRICT

Aquatic Plant Management Plan Update for The Lauderdale Lakes, Walworth County, Wisconsin: 2020	Aquatic plant management (APM) programs are designed to further a variety of lake user and riparian land owner goals and desires. For example, most APM programs aim to improve lake navigability. However, APM programs must also be sensitive to other lake uses and must maintain or enhance a lake's ecological integrity. Consequently, APM program objectives are commonly developed in close consultation with many interested parties. The Lauderdale Lakes APM plan considered input from many entities including the Lauderdale Lakes Lake Management District (the District) and the WDNR.
