

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: SEWRPC Walworth - East Troy
Name: Village of East Troy and Environs
Type: Water Quality Planning
Subtype: Sewer Service Area Plans
Status: ACTIVE
Start Date: 10/01/1972
End Date: 06/30/2099
Purpose: Sanitary sewer service area plans for the Village of East Troy and Environs that identify the outer boundary of the area within which sanitary sewers may be extended. The plans also identify the extent of environmentally sensitive lands within each sewer service area. A map identifying the location and extent of the State-approved sanitary sewer areas may be found here on the [SEWRPC Regional Map Server](http://maps.sewrpc.org/regionallandinfo/regionalmapping/default.shtm)
 Upon approval of the SSA Plans, sewer extensions must be in conformance with the delineated 20-year growth boundary. As the designated water quality management planning agency for the seven-county southeastern Wisconsin Region under the Federal Clean Water Act, SEWRPC is responsible for working with local governments and sewerage plants and the Wisconsin Department of Natural Resources to ensure that the federal and state laws are fulfilled.
Objective: Cost-effective public sewer for the Village of East Troy and Environs and delineation of environmentally sensitive areas to protect water quality.
