

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: SPL-192-09
Name: WHITEFISH LAKE PROPERTY OWNERS ASSOC: D.O. Meter Acquisition
Type: Lakes Grant
Subtype: Small Scale Lake Planning
Status: COMPLETE
Start Date: 10/01/2008
End Date: 06/30/2009
Purpose: Long term Dissolved oxygen monitoring will take place on Whitefish Lake for the Self Help Monitoring Program.

The project includes the following goals: 1) More efficient and less time consuming for volunteer; 2) Allow for testing of DO at more frequent intervals to develop a more comprehensive profile; 3) Increase accuracy of testing; 4) Allow for rapid testing of multiple sites following herbicide treatments of EWM; 5) Develop a benchmark of Whitefish Lake water quality.

Project deliverables include: Proof that the meter was purchased.

Specific conditions for this Project: 1) DO profile data should be sent to Frank Pratt, Fishery Biologist in Hayward; 2) The information collected by the Self-help monitor should be entered into the department database; 3) The department will only fund the purchase of the Hach HQ 30 meter. The lake association may buy a different model, but they must pay the difference.
