**Outcome:** During 2004, the Lake Michigan Forum, a committee of the public stakeholders providing input to US. EPA on the Lake Michigan Lakewide Management Plan (LaMP), conducted an assessment of environmental stewardship in the Baird Creek watershed (Baird Creek Watershed Stewardship Assessment November 2004, Lake Michigan Forum, Delta Institute). The stewardship assessment was aimed at identifying opportunities for increasing environmental stewardship among decision makers and the general public in the watershed community. Working closely with many local partners in the Baird Creek watershed, the Lake Michigan Forum conducted a literature review, gathered existing environmental information and interviewed dozens of individuals living and working in the Baird Creek.
