

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: ABDI_L&WCD_04
Name: Digitize the hydrography for Major Land Resource Area 92 in Ashland & Douglas Counties
Type: Great Lakes Grant Project
Subtype: Great Lakes Information and Indicators
Status: COMPLETE
Start Date: 03/11/2004
End Date: 09/30/2004
Purpose: Digitize the hydrography for the portion of Major Land Resource Area 92 (MLRA92), Superior Lake Plain in Ashland and Douglas Counties.
Objective: The process for digitizing the hydrography for MLRA92 in Bayfield County was already developed and completed in the summer of 2003. Adding Douglas and Ashland counties to the Bayfield hydrological dataset will help to create a seamless dataset for the majority of MLRA92 in Wisconsin.
Comments: Diane Daulton \$18,400
Outcome: Existing hydrography layers in MLRA92 lack fine detail, thus a more detailed dataset is necessary for land-use planning, especially at a local level.
