

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: CLMN-20110721-Kewaunee
Name: Citizen Lake Monitoring Aquatic Invasive Species Training- East Alaska Lake - 7/21/2011
Type: Citizen Lake Monitoring
Subtype: Training Sessions and Workshops
Status: COMPLETE
Start Date: 07/21/2011
End Date: 07/21/2011
Purpose: People interested in becoming part of the frontline defense against aquatic invasive species are encouraged to attend a free July 21 workshop in Kewaunee County to receive training in how to detect the invaders.

The training is set for 6 to 8 p.m. on July 21 at the East Alaska Lake boat landing in Pierce in Kewaunee County. The Manitowoc County Lakes Association and the Department of Natural Resources are sponsoring the event.

Participants will learn how to detect various aquatic invasive species in their favorite lake or river, and will leave the training with a resource kit that contains educational materials, invasive species identification cards, and a plant identification hand book. One kit is available per lake.

According to Brenda Nordin, DNR aquatic invasive species specialist, and Tom Ward, aquatic invasive species coordinator for Manitowoc County Lakes Association, by helping detect Eurasian water-milfoil, zebra mussels and other invaders early on, lake groups are helping the environment by deterring the establishment of invasive species and will be a more cost-effective solution in the long-run.

Objective:

Comments: CLMN workshop held from 6 PM on at East Alaska Lake in Alaska WI 44.5463, -87.5010
 When: Thursday, Jul 21, 2011
 Where: East Alaska Lake, Alaska, WI
 Description: 6 pm

Outcome:

Study Design:

QA Measures:
