

Wisconsin Department of Natural Resources SWIMS Project Summary

General Project Information

Project ID: PLtraining-20110415
Name: Purple Loosestrife Training - West Bend 4/15/2011
Type: Purple Loosestrife
Subtype: Training Sessions and Workshops
Status: COMPLETE
Start Date: 04/15/2011
End Date: 04/15/2011
Purpose: Purple loosestrife has been in Wisconsin since the early 1900s and recently has been recognized as a major problem and threat to Wisconsin's wetlands. Citizens and local environmental professionals can get involved in loosestrife control efforts. Some people monitor purple loosestrife by driving or walking corridors, such as highways, where it may be found. They then note the locations where purple loosestrife has been sighted and if possible take photos, so it can be verified. Once loosestrife is found, the cooperators can raise and release beetles as a biocontrol effort. Finally, revisiting sites where beetles have been released previously is important to evaluate and monitor the success of the biocontrol effort.

Objective:
Comments: training took place at West Bend High School. 18 attendees- 1 AIS coordinator, 1 local cooperator, 2 teachers and 14 students
Outcome:
Study Design:
QA Measures:
